PHYS 305V in Spring 2012
“The Search for Water in the Solar System”

Time: Tuesday and Thursday: 2:35-3:50pm
CRN: 21914
Where: Gardiner Hall 229
(Physics Department)
Instructor: Dr. Boris Kiefer.
Questions? Direct to: bkiefer@nmsu.edu

Course focuses on conceptual reasoning:
Areas: Physics; Chemistry, Biology; and Engineering.

A few selected course topics:
• Nuclear synthesis/element abundances.
• Chemistry/physics of the Solar System.
• Properties of water.
• Where is the water in the solar system?
• Space exploration in the solar system and beyond: habitable zones and exoplanets.
